

## Assignment-3

### Create IAM user and give full access to S3.

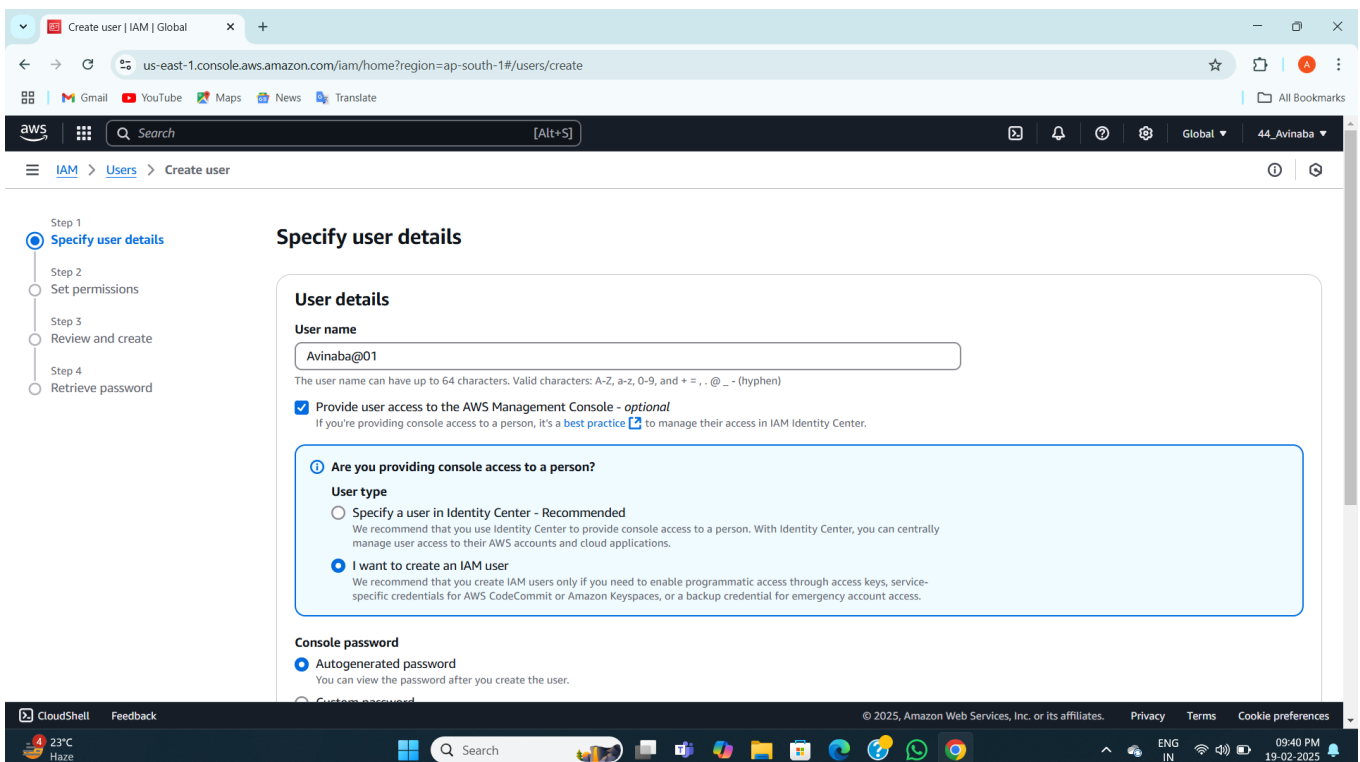

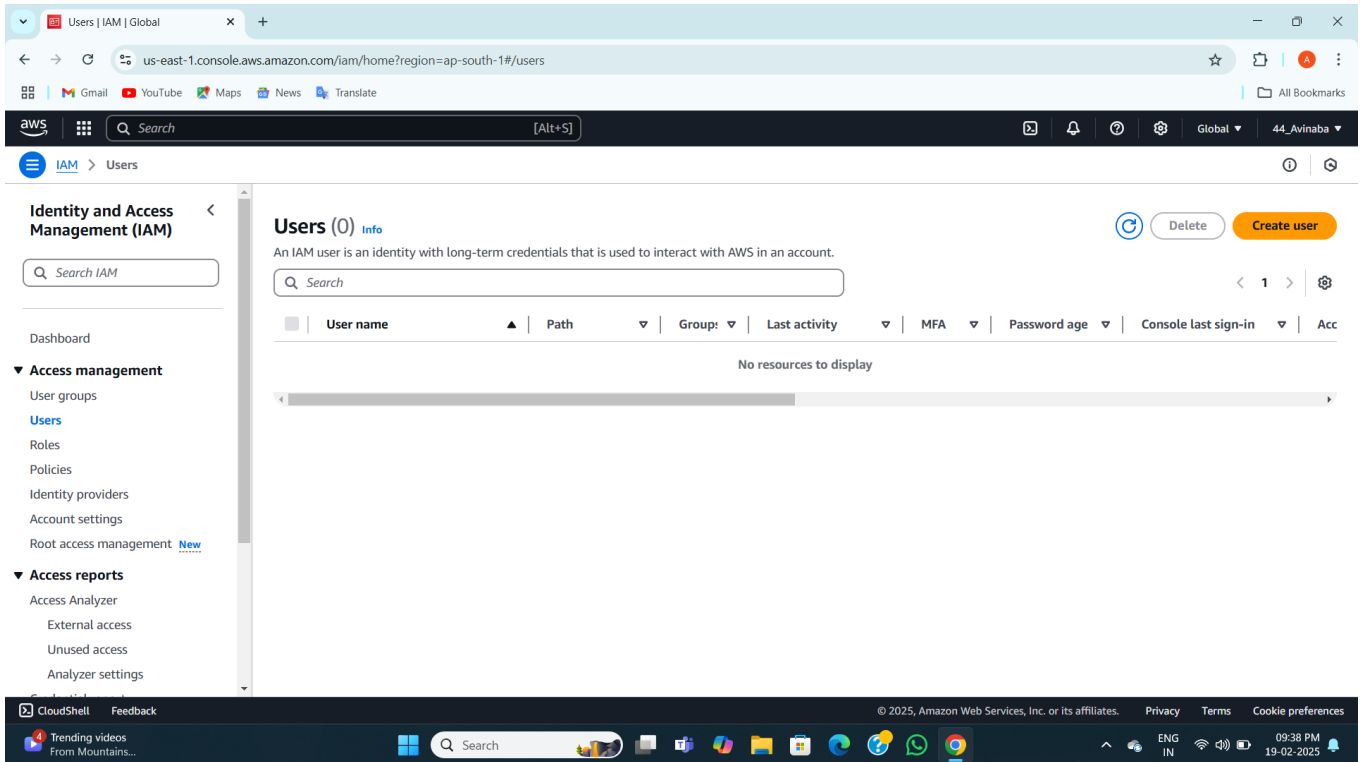

1. From AWS console search for IAM and click on it.

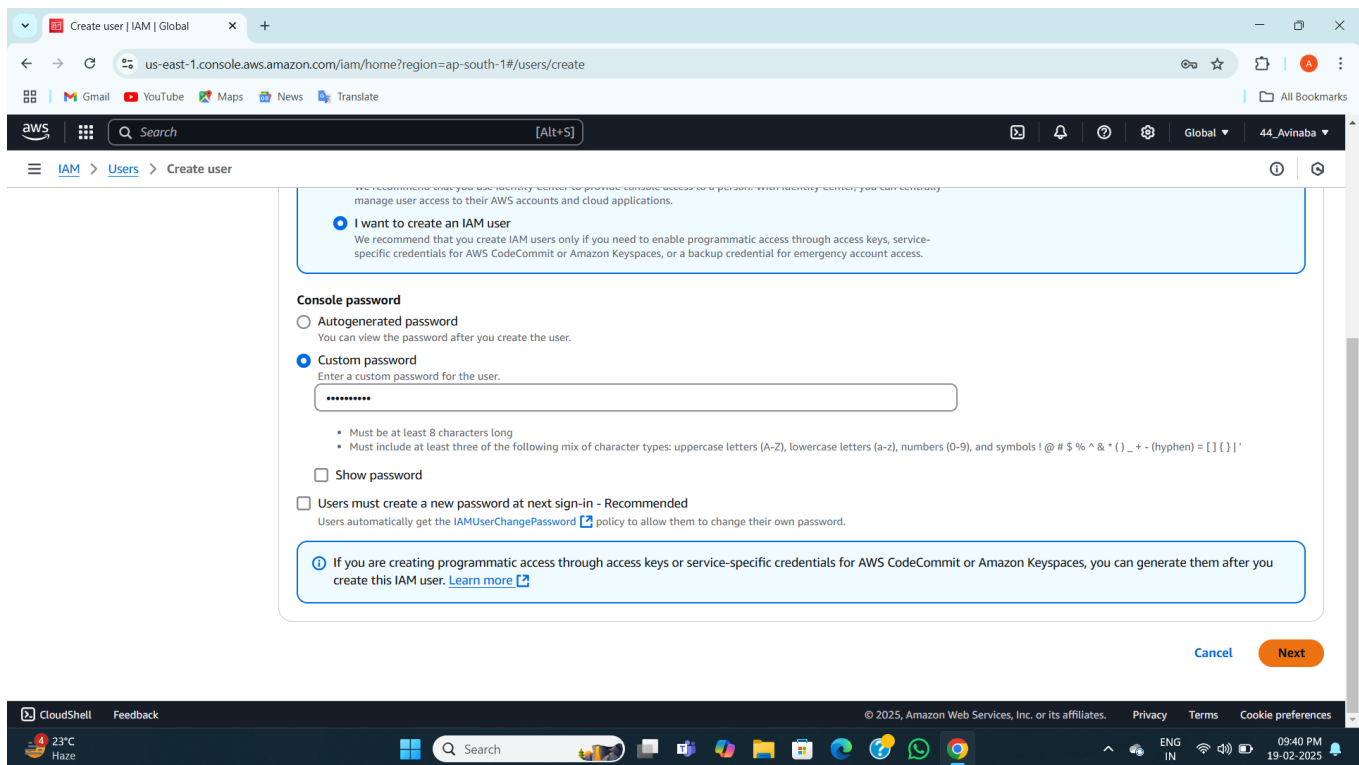

2. Under IAM resources click on 'Users'.

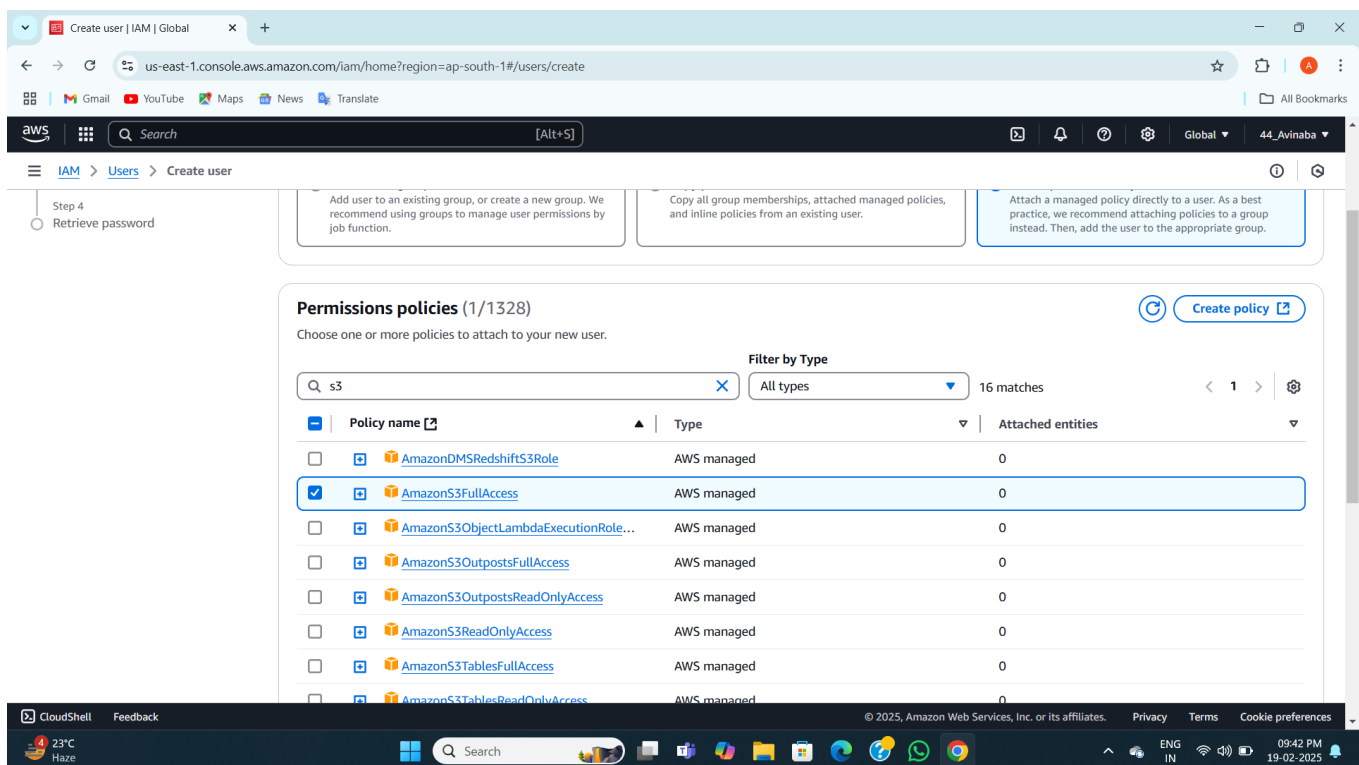

3. Click on 'Create User'. Provide User details (name, password, etc.) and click on "Next" to proceed.

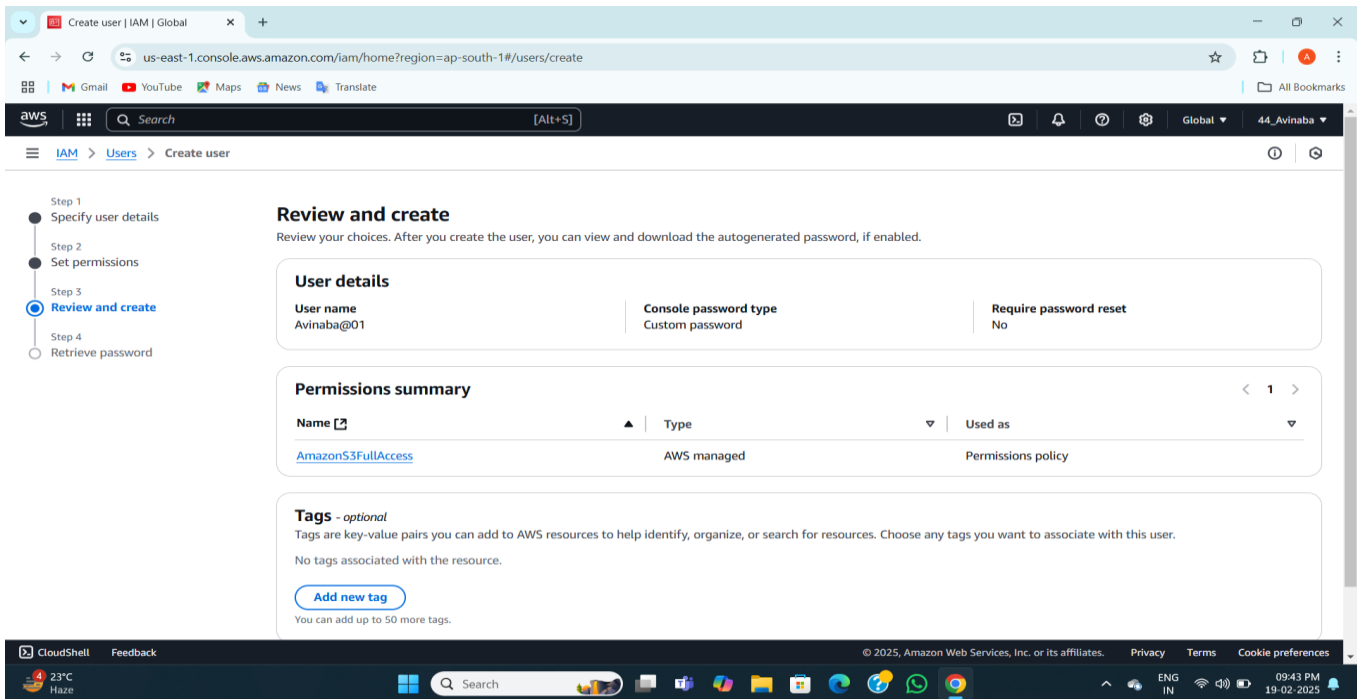

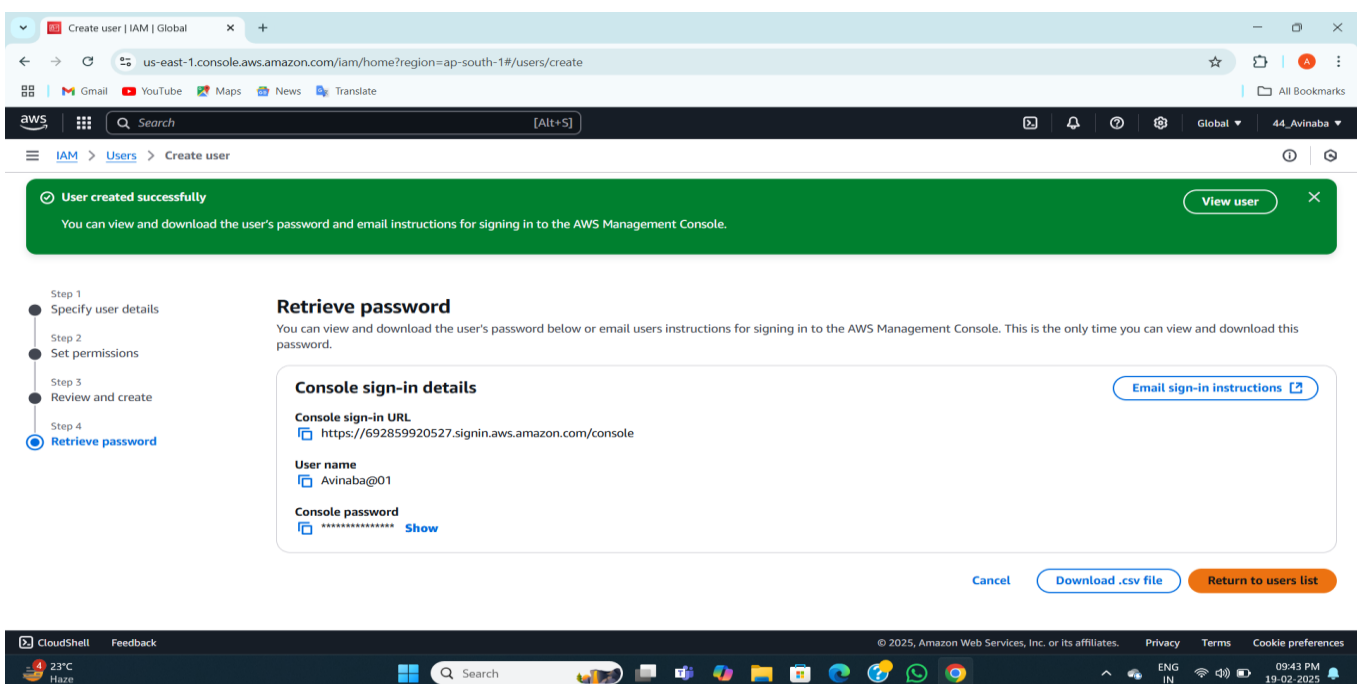

4. Click on 'Attach policy directly', search "AmazonS3FullAccess" then click Next.

5. Under 'Review and create', click on 'Create user' to create our IAM user.

6. Click "return to users list"

7. IAM user is created successfully.
